

Imaging and cancer care navigation

Early detection of cancer is important, because cancer is most treatable during the early stages.

Healthcare providers use a range of imaging tools to assist in cancer screening and diagnosis. Imaging Director Gus Gonzalez, MBA, CNMT, ARRT(N) will discuss how these tools work and what to expect.

Cancer nurse navigator Ellona Gehman, RN, BSN will discuss a navigator's role in helping patients find the resources they need if they are diagnosed with cancer.

In-person and virtual seminar options are available:

Tuesday, January 21, 12pm - 1pm

Medical Office Building D, 2nd Floor, Hope Auditorium
Alaska Regional Hospital, 2801 DeBarr Rd.
Anchorage, AK 99508
